DIARY NOTES

DD/S

11 August 1971

25X1A [redacted] On this date [redacted] came in 25X1A
 to talk over some ideas about the Agency and its participation in the
 National Interdepartmental Seminar. [redacted] suggested that this 25X1A
 discussion with [redacted] and other members of the NIS staff as well
 as its Chairman indicated that the Agency substantive contribution to the
 Seminar should be reviewed and in his opinion could be improved.
 25X1A [redacted] also told me that under the current NIS schedule the third
 Monday is the responsibility of the CIA staff representative. He would
 favor a return to the practice of earlier years when the Seminar included
 one day spent at CIA Headquarters. This [redacted] understood was 25X1A
 eliminated from the schedule for a number of reasons including the lack
 of solid content in the presentation at Langley and the mechanical
 difficulties of accommodating this group for lunch.

25X1A I encouraged [redacted] to go ahead subject to confirmation by
 Mr. Cunningham with the development of suggested schedule for a day
 at Langley. I noted that many other groups were accommodated on campus
 25X1A [redacted] also that the panel technique proved highly
 [redacted] and is now used at the National War College. I
 expressed the belief that luncheon should be no problem noting the arrange-
 ments which have been made for other groups and the possibilities offered
 by the Rendezvous Room and the North Cafeteria.

25X1A [redacted] will be back after looking into these matters further
 25X1A including talking to [redacted] He noted that the "CIA Day" in the next
 NIS is 27 September.
